<https://github.com/florindragoi95>

Bachelor of Computer Science  
Lucian Blaga University  
2014 – 2018

## STRENGTHS

### Adaptable

Demonstrated agility in mastering new technologies and languages, ensuring effective project execution.

### Team Player

Strong team player with effective communication skills, ensuring smooth collaboration and on-time project delivery.

### Problem-Solver

Strong analytical skills for diagnosing and resolving code issues, leading to efficient and effective solutions.

### Detail-Oriented

Detail-oriented in coding, delivering clean, error-free code for high-quality software applications.

### Ownership

Takes full responsibility from start to finish, ensuring quality and timely project delivery

### Senior Software Developer

2024 – Present

COMPANY: Crode Solutions (<https://crode.solutions>)

Role: Full-Stack Developer

RESPONSABILITIES:

- Responsible for the full software development lifecycle (SDLC), including architecture, development, testing, deployment, and maintenance
- Set up infrastructure, CI/CD pipelines, and containerized deployments
- Improved site performance, SEO, and accessibility
- Developed and maintained technical documentation

PROJECTS:

- Novalo
  - Cross-platform IT news hub available on web, Android, and iOS. (<https://novalo.info>)
  - Tech: Expo, React Native, Node.js, TypeScript, PostgreSQL, Java, Spring libraries, Gradle, Docker, Jenkins, Gitea, Harbor, CI/CD, Express Server, Nginx, React Native Paper.
- Crode Presentation Website
  - Company website showcasing Crode Solutions' expertise in software development. (<https://crode.solutions>)
  - Role: Full-Stack Developer
  - Tech: TypeScript, React, Remix.js, TailwindCSS Docker, CI/CD, Express Server, Nginx, Jenkins.

### Backend Developer

2018 – 2023

COMPANY: Paradine (<https://paradine.at>)

Role: Backend Java Developer

RESPONSABILITIES:

- Initially responsible for development and testing of new features, later taking full ownership of the application's deployment, maintenance, updates, and performance.
- Managed automatic deployments and operations on both internal environments (Kubernetes) and client-managed infrastructure (Openshift).
- Collaborated with cross-functional teams in an Agile environment.
- Worked directly with clients to investigate production issues.
- Participated in code reviews.
- Developed and maintained technical documentation.

PROJECT:

- EPTOS
  - Web app for enterprise clients (e.g. BASF, Infineon, Siemens, AVL, Audi, Zeiss), based on eClass classification.
  - Tech: Java, JSF, Hibernate, Spring libraries (e.g. Spring Boot, Spring Security, Spring Cloud), Tomcat, JBoss Seam, Oracle, Gradle, Docker, Kubernetes, Openshift, Bamboo RabbitMQ, TomEE, SOAP, Git, Camunda

### Backend Developer

2017 – 2018

COMPANY: Scriptics (<https://scriptics.ro>)

Role: Backend PHP Developer

RESPONSABILITIES:

- Developed new features, debugging, maintenance, and testing.

PROJECT

- Startablisth
  - European startup database for innovation tracking and market analysis.
  - Tech: PHP, CodeIgniter, Laravel, NodeJS, MySQL, JavaScript, jQuery, Ajax, Typescript

# Skill Matrix

Category	Technology	Number of years	Last year used	Skill level
Programming Languages	Java (7, 8, 9, 11, 17, 21)	< 6	2025	5
	TypeScript	> 1	2025	3
	JavaScript	< 1	2024	3
	PHP	2	2018	4
	C#	1	2018	2
JavaScript Library	JQuery, Ajax	1	2018	3
Markup Language	HTML	> 2	2024	5
	XHTML	< 5	2023	4
Backend Technologies	Spring Boot	5	2025	5
	NestJS	< 1	2025	3
	Laravel	1	2018	3
Full Stack Technologies	Seam	< 5	2023	3
	Remix	< 1	2025	4
Database	PostgreSQL	1	2025	4
	Oracle	5	2023	4
	MySQL	1	2018	4
Frontend Technologies	React	1	2025	4
	React Native	< 1	2024	4
	React Native Paper	< 1	2024	4
	Expo	< 1	2024	4
	Bootstrap	< 2	2018	3
	TailwindCSS	< 1	2024	2

Category	Technology	Full Experience	Last Year used	Skill Level
CI/CD tools & Containerization & Orchestration	Docker	3	2025	4
	Kubernetes	3	2024	4
	Jenkins	< 1	2025	3
	Bamboo	3	2023	5
Cloud	AWS	< 1	2025	1
Image Registry	Harbor	< 1	2025	5
Version Control	Git, Gitea	5	2025	5
Message Brokers	Kafka	< 1	2025	2
	RabbitMQ	1	2022	2
Workflow	Camunda	< 1	2023	3
Runtime Environment	NodeJS	2	2025	4
Application Servers & Web Servers	Tomcat, TomEE	5	2025	4
	Express	1	2025	4
	JBoss	5	2023	3
	Nginx	< 2	2025	4
Project Management and Documentation	Jira, Confluence	6	2025	5

### Skill Level

- 1.Theoretical knowledge
- 2.Junior
- 3.Confirmed experienced
- 4.Advanced experienced
- 5.Senior expert

### Development Tools & IDEs:

- Eclipse, Xampp, IntelliJ IDEA Ultimate, NetBeans, Visual Studio, Php Storm, Android Studio, Sql Developer, Soap UI, Postman
